

2025 APPI Tribute to Volunteerism

Martin Frigo, RPP In Memory Of

It was with profound sadness that Martin Frigo, a cherished and valued member of our Institute passed away in October 2024. Martin was a dedicated member of APPI and had served on Council, Registration Committee, and a number of Conference Committees. He also mentored many Candidate members through the RPP certification process, as he took very seriously his professional obligation to provide support and assistance to less experienced members of the Institute.

Martin also loved his community, and was an active member of the St. Albert Kinsmen Club where he supported that organizations various activities including their play therapy program for children impacted by family violence and the Rain Maker Festival.

Martin always showed up with a big smile and his sleeves rolled up. He led with curiosity, compassion, kindness and a tremendous heart for community and service. The planning profession and our community is a richer place due to Martin's contributions and his memory challenges and inspires us all to do better and to remember that positive change can happen with each, and every act of kindness.
