

APP 2017 Compensation and Benefits Survey Summary

The 2017 Compensation and Benefits Survey was designed to gather information regarding the demographics, job responsibilities and compensation and benefits of regulated members of the Alberta Professional Planners Institute (APPI). It replicates a previous survey that was conducted in 2015. 353 members completed the survey and the following statistics pertain to those who responded to the survey.

Annual Increase in Salary Year to Year

Over the last year the median annual salary for those with RPP increased by 5.8% from \$103,000 to \$109,000.

Median Gender Wage Gap

2015

reduced from 7.5% to 5.6%
