# CONNECTION 2024 NATIONAL CONFERENCE

July 9 - July 11, 2024  
Edmonton Convention Centre

We share a profession, ethical foundation, and vision of supporting inclusive and vibrant communities. Our care for the natural world and the well-being of current and future generations is real and it shapes us as community-builders and problem-solvers. Together, at the 2024 CIP/APPI national planning conference, **CONNECTION**, we will harness our energy and leverage our values, tools, and training to bridge divisions, confront wicked problems, reconcile, and actively build and strengthen relationships between one another at an individual and community level. There is no better time than now to learn, connect, and share with each other—planners, students, allied professionals, researchers, placemakers, and all who are dedicated to building forward.

[National Conference | CIP \(cip-icu.ca\)](https://cip-icu.ca)

# WELCOME TO THE 2023 APPI CONFERENCE – NAVIGATING AN UNCERTAIN FUTURE!

On behalf of APPI Council, and the Conference's Organizing Committee, I am delighted to welcome you to the 2023 Annual APPI Conference in one of the most beautiful communities in the Province of Alberta, the Municipality of Jasper. Luckily it is the second in-person conference since the COVID-19 Pandemic prevented us from having in-person conferences.

While cities, towns, and rural communities have and continue to serve as centers of creativity, innovation and economic growth, they are at the same time a source of complex challenges – facing issues around population growth, crisis of housing affordability, environmental resiliency and sustainability. In addition to, adapting to COVID -19 new landscaping including: technology, managing and maintaining effective planning teams remotely, managing hybrid work schedules, and dealing with issues associated with diversity, equity, and inclusion. in addition, challenges of climate change and the uncertainty that comes with it.

Our conference's theme is very timely since we all continue to face many of these challenges and have had to deal with rapid and complex changes over the past few years. It has become evident that we are living in a time of uncertainty and continue to manage planning issues that vary in intensity and scale.

It is not surprising that this year's "Navigating an Uncertain Future" agenda is designed to address many of these challenges. The program includes a diverse array of many interesting sessions and talks in topic areas that range from the best strategies during a world of disruption, valuable techniques for dealing with housing complexities, lessons learned by other communities, managing remote work, and land use planning, all the way to regional planning... to mention a few.

Once again, this year the annual APPI Conference includes excellent keynote speakers, expert exhibitors, and tremendous networking opportunities. Join us to learn, develop professionally, meet colleagues in-person, and celebrate the power of the Planning Profession resilience.

While the overall conference program promises to be an outstanding experience, we hope that you will also enjoy all that the Municipality of Jasper has to offer in the days before, during or after the conference.

I very much look forward to seeing you all at the Fairmont Jasper Park Lodge!

## MESSAGE FROM THE CONFERENCE CO-CHAIRS

Welcome Back to all our delegates to the 2023 Annual APPI Conference, our second in-person conference since the pandemic. We are so excited to connect with each one of you.

This year's conference will explore how planning is evolving and will continue to evolve in the future and how to navigate the uncertainty. The expected outcomes of the conference include introducing participants to new and exciting ways that can help planners learn how to build future-ready communities, while providing tangible and technical elements that can be utilized in our day-to-day lives. Professional planners and related professionals will present unique, creative and unconventional discussions on how we, together, can navigate an uncertain future.

We are very excited to learn what our colleagues have been up to over the last couple of years and learn some new tips and tricks to expand our planning skills, and hear from our keynote Shawn Kanungo about strategies in a world of disruption. In his session, Shawn will provide an optimistic roadmap for the future as he explores how we can take unexpected approaches to innovation to remain competitive and relevant. We hope during this conference you meet a new colleague and reconnect with some old ones.

MARY SCHAFFER C

Greg Birch RPP, MCIP  
Discipline Committee

Erin O'Neill RPP, MCIP  
Discipline Committee

This session will provide an overview of the Professional Code of Practice governing regulated planners in the APPI jurisdiction. The code will be the central focus of the course and will be used to generate group discussion about issues confronting planners working in the public service and private industry. This discussion will help planners address a range of questions including:

- Who to go to for advice?
- How does the Code provide a moral/ethical foundation?
- How can APPI help with difficult issues?

LU = 1.5

For more information or to review the code, search "Professional Code of Practice" on the APPI website or [click here](#).

**6:00 pm - 6:30 pm**

**First Timers Reception**

TREFOIL LAKE\* OR

*Refreshment Break*

## QUALICO communities

### Sessions 10:15 am - 11:30 am **1A INFILL: Tool to address the complexity of housing** MARY SCHAFFER

Leighton Ginther <sup>RPP, MCIP</sup>  
Principal, Urban Systems

Chris Ulmer <sup>RPP, MCIP</sup>  
Principal, Urban Systems

Bill Given  
Chief Administrative Officer  
Municipality of Jasper

David Capper <sup>RPP, MCIP</sup>  
Senior Planner, Urban Systems

Jennifer Comrie  
Planner, Urban Systems

We often adopt policy and regulatory changes that we hope will theoretically encourage more infill development in our communities. However, this planning-focused approach doesn't fully realize the necessary preconditions that would facilitate meaningful increases in infill development. In our work, we have witnessed the following themes emerge:

**Affordability** – Municipalities are encouraging infill development to increase housing supply in response to affordability pressures. **Infrastructure Requirements** – Blanket infill approaches often neglect proactive infrastructure improvement strategies that manage risk. **Collaboration + Engagement** – We are seeing municipalities shift the focus of their engagement from individual applications to broader neighbourhood change. **LU = 1.25**

## **1B Does this Benefit Us? Creating a Framework for Success**

**P Y R A M I D**

**Liisa Tipman** RPP, MCIP

Director of Regional Planning,  
Calgary Metropolitan Region Board

**Jordon Copping**

Chief Officer, Calgary Metropolitan Region Board

**Jaime Graves** P.ENG., PMP

Director of Regional Projects, Calgary Metropolitan  
Region Board

As a new growth management board established in 2018, the Calgary Metropolitan Region Board (CMRB) had the monumental task of building an organization AND creating a regional growth plan to improve quality of life for residents and businesses. To find a path through innumerable perspectives and unknowable futures, the CMRB planning process established a baseline understanding of the region and focused on the benefits of regional planning – what do we want to achieve? The regional growth plan does not imagine an ideal end state in the form of a land use plan; rather, it establishes a mandatory framework, a form of contract, that focuses on where regional planning and collaboration create the greatest benefits. This approach to establishing a common purpose and a pathway to tangible and measurable outcomes has led to success, even in the Growth Plan's first year post approval! This in-person engagement will walk participants through how we developed a work plan focused on benefits, the role of datasets and background reports, scenario planning, and the importance of measurable and continual improvement to create change, even in uncertain times. **LU = 1.25**

**11:45 am - 12:45 pm**

**1:00 pm - 2:00 pm**

**Plenary 1**

**Navigating an Uncertain Future:  
Lessons from High River's Resilience**

**BEAUVERT**

**Nilendu Bala**

Planner I, Town of High River

Natural disasters such as floods can cause immense destruction, affecting communities, their economy, and daily lives. The Town of High River is a model of resilience in the face of such disasters. This session aims to showcase High River's resilience and how it has navigated an uncertain future. The experience and lessons learned in flood protection and mitigation, annual river monitoring, and flood preparedness will be shared in this session. The four stages of local river monitoring and updates that inform residents of potential risks will be explained. A deeper understanding of how to prepare for and respond to flood emergencies will be gained by attendees. An unconventional approach to planning, focusing on community engagement and cross-disciplinary collaborations, will also be discussed. The meticulous efforts have resulted in world-class protection and made High River one of the safest communities in Canada. Since many communities in Alberta are located along major rivers, by attending this session, attendees will learn about innovative planning strategies and community engagement approaches that can help them navigate an uncertain future involving floods. They will also gain practical solutions and insights into how to tackle the rising environmental challenges facing planners today. **LU = 1.0**

Sessions 2:00 pm - 3:15 pm

## 2A Shifting Priorities: Remote Work & Land Use Planning

MARY SCHAFFER

**Nick Pryce** RPP, MCIP  
Vice President, Planning Group Leader,  
V3 Companies of Canada

As the world shifts into a “new normal”, remote working options aren't going anywhere. With this comes a myriad of opportunities, like better work life balance, flexibility, and reduced overhead. But what does this mean for the future of planning? Downtown urban cores are not seeing the massive influx of workers arriving back to them as was predicted. Instead, vacancy rates are high, and the perception of safety is in many cases shattered. Meanwhile, rural communities struggle to provide housing choice and options for remote workers moving out of busy urban areas. This session will focus on the impact that remote working has on land use planning now, and in the future.

Planning is slow to pivot and adapt to changing externalities. He will share recent studies into this area of research and lessons learned to explore where land use trends are going – and importantly – how to shift with them. And will thread the needle in a local context and explore how to better change with these pressures.

Remote working is here to stay. Planners need to understand the implications of this on land use planning and work to capture the positive implications while navigating shifting priorities.  
LU = 1.25

## 2B Unveiling the Value of Spatial Land Use IDA

PYRAMID

**Abul Azad** RPP, MCIP  
Planner, Regional Municipality of Wood Buffalo

**Kodjo Efu**  
Supervisor, Community Development Planning,  
Regional Municipality of Wood Buffalo

Communities throughout the world are facing ever-growing challenges such as climate change, housing affordability, the ageing population, and more. These challenges are increasing expectations of the role of planners as enablers of socially, economically, and environmentally thriving communities. The solution to many of these challenges will require accurate, timely and location-ready data that can be analyzed to generate insights for timely and evidence-based planning. In the aftermath of the 2016 Horse River wildfire, faced with the challenge of rebuilding and addressing the impact of the region's changing economy on its long-range planning, the Planning and Development Department of the Regional Municipality of Wood Buffalo conducted its first inventory of land use in the region. In 2022-23, the land use inventory was updated with approved Development Permits from 2016 onwards using FME, a powerful spatial data processing tool. This land use inventory generated a comprehensive dataset of current land use that accurately represents the actual conditions in the region. Evaluating the existing land use patterns, densities, and relationships helps determine future generalized development concepts and land available to meet the region's future land use needs. Creating this land use inventory required tremendous efforts and overcoming many challenges.  
LU = 1.25

3:15 pm - 3:30 pm | **BEAUVERT A**  
Refreshment Break

**QUALICO**  
communities

## Tours – Jasper Town Site

Tours at the Jasper townsite will be offered at two different times. Delegates will register for either time slot via the online registration form. There is no cost to participate. However, delegates must use their own transportation to and from Jasper.

## Sessions 3:30 pm - 4:45 pm

### 3A Reimagining Lacombe: Taking New Life to Old Plans

MARY SCHAFFER

#### Guy Lapointe

Director of Community Services, City of Lacombe

#### Matt Knapik

Urban Designer, Associate, O2

Over the last two years, O2 and the City of Lacombe have collaborated to revive a decade-old downtown plan—without revising the plan itself. Their process was anchored by a committee of community leaders and supported by purposeful facilitation and design. In a short time, they have successfully delivered on a range of implementation measures, including new landmark elements, greenspace upgrades, an updated downtown visual identity, and a full-block plaza conversion.

This session will tell the story of how the collaboration grew, showcase some of its award-winning outcomes, and map out a series of insightful and transferrable lessons, including:

- tips for working with aging plans.
- strategies for involving the community in capital prioritization.
- establishing appropriate administrative leads to drive the process.
- enabling elegant transfer processes from concept to construction.

Planners who oversee good but dusty plans, or who are working with clients that own good but dusty plans, will benefit from this interactive hour. Following the presentation, a facilitated discussion promises to prompt broader conversations about the increasing demands for implementation within local plans, steering through the uncertainties of implementation, and the powerful role communities can play in owning and guiding the application of plans in their neighbourhoods. LU = 1.25

## 3B Heritage Detour in the Yellowhead PYRAMID

**Madison Sharman**

Heritage Coordinator, Yellowhead County

**Margaret Schultz**

Operations and Programming Manager,  
Northern Rockies Museum of Culture  
and Heritage

Join the Northern Rockies Museum of Culture and Heritage and Yellowhead County Heritage Program on a journey through the Yellowhead Corridor. Discover the fascinating development of this region and how simple trade routes transformed into one of Canada's most important transportation corridors.

Presented by two local heritage buffs, this crash course into regional history will keep you entertained and inspired to learn further. Attendees will interact with replica fur trade items, artifacts and more from the travelling museum suitcase. Be prepared to think about hypothetical scenarios and how small changes in history would impact the current state of the corridor. **LU = 1.25**

**6:00 pm - 7:00 pm**

**Gala Reception**

BEAUVERT

**7:00 pm - 8:00 pm**

**Banquet**

BEAUVERT

*Banquet Beverages*

**8:00 pm - 9:00 pm**

**Entertainment**

BEAUVERT

8:00 am - 9:00 am | **BEAUVERT A**  
*Breakfast Buffet*

**9:00 am - 10:15 am**

**Plenary 2**

**Provincial Paramountcy – Impact on  
Municipal Planning Jurisdiction**

BEAUVERT

**Jeneane Grundberg**

KC – Partner, Brownlee LLP

**Chloe Case**

Lawyer, Brownlee LLP

Municipal planning approvals often overlap with approvals from other regulatory agencies, including many provincial regulatory bodies. The law of provincial paramountcy will impact a local municipality's Transportation, Alberta Environment and Protected Areas, and the Alberta Utilities Commission. Session attendees will learn the role planners can play in ensuring local planning perspectives are heard and taken into consideration at the provincial level. Participants will also learn about municipal participation before/within various provincial agencies and boards. This topic represents both rural and urban issues and is relevant to both public sector and private sector planners working with multiple regulatory bodies. **LU = 1.25**

10:15 am - 10:30 am | **BEAUVERT A**  
*Refreshment Break*

**QUALICO**  
communities

## Sessions 10:30 am - 11:45 am

### 4A Beaumont's Downtown Vitalization: Lessons learned from ARP Implementation

BEAUVERT

**Joannes Wong** <sup>RPP, MCIP</sup>  
Manager, Long Range Planning, City of Beaumont

**David Schoor** <sup>RPP, MCIP</sup>  
Senior Planner, ISL Engineering

**Dnyanesh Deshpande** <sup>RPP, MCIP</sup>  
Principal, Green Space Alliance

In March 2020, the City of Beaumont completed their revised Centre-Ville Area Redevelopment Plan (CARP) to establish a long-term vision for development/redevelopment of the downtown. The CARP identifies a few short and long-term priorities to reinforce this area to achieve the vision and enhance the unified sense of place. In addition, the City also developed Beaumont Urban Design Guidelines to establish design expectations for future developments downtown and other areas of the city. LU = 1.25

### 4B Creating Safe & Brave Spaces to navigate change in uncertain times, focusing on Diversity, Equity and Inclusion (DEI)

MARY SCHAFFER

**Shefali Khoja**  
MBA Speaker, Facilitator Public Engagements, Mediator, Consult with Us

**Sal Khoja**  
Consultant and Facilitator, Consult with Us

Join us in a thought-provoking conversation around Diversity Equity and Inclusion as a business advantage where we will aim to:

- Unpack the buzzwords around diversity and inclusion and explore what it can mean to you as a planner for your organization.
- Discuss practical ways on how diversity and inclusion positively affect business outcomes and return on investment.
- Explore the role you can play in creating a welcoming, safe, and inclusive space by embedding diversity and inclusion lens into your work.

We may not always be able to adjust or control the degree of change, uncertainty, and complexity we face. As planners the recent experiences of uncertain events or for that matter the present and future advances in new technology with AI, ChatGPT, climate change, focus on equity diversity and inclusion leaves us wondering where do we focus and how do we navigate and what may be coming next?

Through the lens of Diversity, Equity and Inclusion (DEI), we will focus on emerging topics and trends, best practices and innovative ideas to support planners in navigating uncertain times and complexity. LU = 1.25

## 12:00 pm - 12:15 pm Closing Remarks

# SPEAKER BIOGRAPHIES

**SUNDAY OCTOBER 15**

**3:00 pm - 4:30 pm**

**Think it won't happen to you?  
Think Again! Lessons from the  
Discipline Committee**

**Greg Birch** RPP, MCIP  
Discipline Committee

Greg Birch has over thirty years of rich and diverse experience in municipal planning and management. He has worked for rural and urban governments, for regional planning organizations, and in the private sector. His practice has included oil and gas projects and market studies, municipal annexations, a host of municipal planning documents and bylaws, wildlife corridor establishment policy, multijurisdiction recreational trail development, transfer of development credit regulations, potable water system construction, solid waste collection systems, and municipal management. Greg currently volunteers as the Chair of APPI's Discipline Committee and is CIP's appointee to the Professional Standards Board.

**Erin O'Neill** RPP, MCIP  
Discipline Committee

Erin O'Neill, RPP is an Executive Director with Alberta Health and has been working in professional planning for over 15 years. Having worked in both urban and rural areas; Erin has primarily been involved in land use development and emergency management. Since moving to Alberta in 2007, Erin has been a dedicated member APPI by serving on APPI Council, the Discipline Committee, Registration Committee and Co-Chairing the annual conference. While Erin does not work in a traditional planning role, she brings a different perspective to ensure planners working in traditional and non-traditional planning roles are supported.

**MONDAY OCTOBER 16**

**9:00 am - 10:00 am**

**K1 Keynote  
Strategy in a World of Disruption**

**Shawn Kanungo**

As a globally recognized innovation strategist and bestselling author, Shawn Kanungo works at the intersection of creativity, business, and technology. He spent 12 years at Deloitte working closely with leaders to help them better plan for the opportunities associated with disruptive innovation. In his high energy keynotes, Kanungo draws on his extensive experience to provide audiences with an optimistic roadmap for the future; one that embraces unexpected approaches to innovation to remain competitive and relevant.

Since leaving Deloitte, Kanungo has worked with hundreds of organizations on their journey to digital transformation. He's led complex projects incorporating artificial intelligence, cloud technologies, behavioral economics, Web3, and more. Today, Kanungo is a Partner with Queen & Rook, where he advises leading organizations and executives on disruptive trends and invests in early-stage ventures.

Kanungo's work has been featured in the Globe and Mail, The Guardian, CBC, and CTV. He's been recognized by Edify Magazine as one of their "Top 40 Under 40" and the "best virtual keynote speaker I've ever seen" by Forbes in 2021.

A prolific content creator, Kanungo's content on innovation has garnered millions of views across LinkedIn, TikTok, YouTube, and Facebook. His bestselling debut book, *The Bold Ones*, is a playbook for individuals to become bolder and push their careers and companies forward. It has been touted as one of McKinsey's top decision-making books for leaders.

## Sessions 10:15 am - 11:30 am

### 1A INFILL: Tool to address the complexity of housing

---

**Leighton Ginther** RPP, MCIP  
Principal, Urban Systems

Leighton Ginther is a principal with Urban Systems and focuses his practice on designing and revitalizing neighborhoods within complex environments. Leighton has practiced urban design and planning for public and private clients across Western Canada and internationally for over 25 years. Leighton has been involved in projects ranging from site-specific development analysis to mobility plans, design guidelines, downtown redevelopment projects and neighborhood plans. He regularly leads workshops that engage council, staff, and stakeholders and is an advocate for collaborative processes.

**Chris Ulmer** RPP, MCIP  
Principal, Urban Systems

Chris is a Principal at Urban systems and a Community Planning Consultant with experience in long range planning, regional collaboration, asset management, community development, and public policy. Chris focuses on sustainable community development, recognizing communities as complex adaptive systems, and has worked with a variety of municipalities in Western Canada. Chris is a strong communicator and experienced in managing projects from inception through adoption for both rural and urban municipalities of various sizes.

**Bill Given**  
Chief Administrative Officer, Municipality of Jasper  
Bill's experience in Alberta local government stretches back to 2001. He was elected to Grande Prairie City Council at just 24 years old and would move on to become both the city's youngest ever and longest serving mayor before he concluded his time as an elected official.

In 2021, he transitioned to the role of Chief Administrative Officer for the Municipality of Jasper where wildfire risk, housing and the tourism based economy are always top of mind. Bill holds a Certificate in Local Authority Administration (from U of A), a Master's in Leadership (from Royal Roads University) and is a certified business continuity professional.

**David Capper** RPP, MCIP  
Senior Planner, Urban Systems

David Capper is a Senior Planner with over 19 years of public and private sector planning experience in numerous Canadian municipalities. The focus of David's practice has been Land Development, Land Use Planning and Project Facilitation with a wide range of past project experience. He has extensive experience in managing a diverse range of planning applications for industrial, residential and commercial forms of development.

**Jennifer Comrie**  
Planner, Urban Systems

Jennifer is a community planner and engagement specialist with a passion for supporting clients in developing tailored plans and processes for decision-making in their communities. She is skilled at facilitation and outreach, developing compelling written and visual content, and public participation development, implementation, and evaluation. Her dual training and experience in community planning and engagement, uniquely positions her to facilitate meaningful conversations between stakeholders, clients, and subject-matter-experts. Jennifer has experience working alongside clients in several sectors, including local and regional municipalities, land developers, and not for profit organizations.

### 1B Does this Benefit Us? Creating a Framework for Success

---

**Liisa Tipman** RPP, MCIP  
Director of Regional Planning, Calgary  
Metropolitan Region Board

Liisa Tipman is an experienced land use planner with an understanding of all facets of the planning process. Joining the CMRB in February 2018 at its inception, Liisa was instrumental in establishing the operational processes and procedures of the CMRB. Beginning in 2019, she oversaw the planning aspects of developing the Region's first Growth and Servicing Plans. Liisa continues to provide strategic and project development support on a wide range of Board initiatives as the CMRB's only professional planner.

## Jordan Copping

Chief Officer, Calgary Metropolitan Region Board  
Jordan Copping is an experienced leader with extensive experience in policy development, process development and improvement, operations, corporate communications, advocacy, and governance. Jordan was hired to build the CMRB from the ground up and lead a small team of professionals in meeting the mandate and vision of the corporation. Prior to joining the CMRB Jordan spent 8 years of his career at the Alberta Legislature, ultimately serving as a senior political advisor to two cabinet ministers and the Premier of Alberta.

## Jaime Graves P.ENG., PMP

Director of Regional Projects, Calgary Metropolitan Region Board

Jaime provides oversight to a portfolio of projects and leads a number of multidisciplinary project working groups. Jaime strives to align each project's approach and impact with the organization's larger goals and objectives. Jaime has been contributing to regional policy development for the last 5 years. Prior to joining the CMRB, Jaime spent 16 years as an environmental engineer and leader of multidisciplinary project teams in an employee-owned consulting firm.

He holds two Graduate and an Undergraduate degree and has worked for several organizations in India and Canada.

## Sessions 2:00 pm - 3:15 pm

### 2A Shifting Priorities: Remote Work & Land Use Planning

---

## Nick Pryce RPP, MCIP

Vice President, Planning Group Leader,  
V3 Companies of Canada

Nick Pryce has over 30 years of working in the planning profession globally who likes to bring forward topical items that planners need to be having an honest and frank discussion about that not only have local but global implications. Nick has a passion for identifying trends that are happening in our world that help us understand what might influence how we live our lives in the future. He looks to trends that will lead to significant shifts in how we live our lives, similar to how the automobile significantly changed how we live today. Nick believes that emerging technologies are going to have a fundamental impact on how we currently live and shape our urban form and that we need to look at the interconnection between these disrupters and what they mean to society, environment, economy and governance.

### 2B Unveiling the Value of Spatial Land Use IDA

---

## Abul Azad RPP, MCIP

Planner, Regional Municipality of Wood Buffalo

Abul Azad is a planner with over fifteen years of experience, having completed work in areas such as policy development, including Area Structure Plans, subdivision development, and land use planning. Azad is a graduate of the University of Calgary and has experience in smart city, geo-information system, data analytics and machine learning. He is also experienced in spatial planning framework and is interested in integrated land use and infrastructure planning. Azad acted as the key technical team leader to develop RMWB's land use inventory project.

## Kodjo Efu

Supervisor, Community Development Planning,  
Regional Municipality of Wood Buffalo

Kodjo Efu is an economist with many years of experience in socio-economic policy development and analysis. Kodjo is experienced in spatial and non-spatial data analytics and machine learning as it applies to location intelligence in economic policy development. ## Sessions 3:30 pm - 4:45 pm

### 3A Reimagining Lacombe: Taking New Life to Old Plans

---

#### Guy Lapointe

Director of Community Services,  
City of Lacombe

Guy Lapointe is a dedicated civil servant who enjoys working with a diverse range of stakeholders to facilitate the development of a well-balanced and sustainable community. He believes in facilitating growth through excellent customer service, innovative solutions, and collaboration. Prior to becoming Director of Community Services in 2021, Guy spent 10 years managing Lacombe's Community and Economic Development. He oversaw the development of Lacombe's Downtown Area Redevelopment Plan Capital Project Recommendations, including a lead role supporting the Citizen Advisory Committee.

#### Matt Knapik

Urban Designer, Associate, O2

Matt Knapik is an associate urban designer based out of O2's Calgary office. He is a purposeful and enthusiastic project leader who brings his extensive facilitation experience and thoughtful design sensibility to bear on projects in planning, landscape, and urban design. He is constantly seeking new ways to animate complex ideas and integrate emerging technologies in the design process. Matt led O2's collaboration with Lacombe, helped develop the capital prioritization process, and facilitated citizen advisory sessions throughout the project's duration.

### 3B Heritage Detour in the Yellowhead

---

#### Madison Sharman

Heritage Coordinator, Yellowhead County

Madison Sharman has been studying the heritage of Yellowhead County for over ten years. She has been fortunate enough to work at multiple incredible regional museums including: Red Brick Arts Centre, Galloway Station Museum and Northern Rockies Museum. Her work with Yellowhead County now takes her across the region, celebrating the varied and colourful heritage there.

#### Margaret Schultz

Operations and Programming Manager, Northern Rockies Museum of Culture and Heritage

Margaret Schultz is the Operations and Programming Manager at the Northern Rockies

Museum of Culture and Heritage in Hinton. She holds an MA in Public History from Western University and a BA in History from the University of Alberta. She oversees all operations and programs for all ages at the NRM. Highlights from the past year include the successful Peterson Papers archive project, many school programs, a pretty epic axe-throwing event, and vacuuming the floor approximately 1000 times.

## TUESDAY OCTOBER 17

### 9:00 am - 10:15 am

#### Plenary 2

### Provincial Paramourty – Impact on Municipal Planning Jurisdiction

---

#### Jeneane Grundberg

KC – Partner, Brownlee LLP

Jeneane Grundberg brings unparalleled experience to her practice in the areas of municipal, planning and administrative law. With more than 120 reported decisions on multiple aspects of municipal, planning and administrative law at all levels of the Alberta Courts, Jeneane leads legal teams on complex litigation as well as policy and bylaw development. Her work has been recognized as having important precedential value, helping inform future court decisions and municipal actions; she is often a consultant to the provincial government on planning and development matters. Jeneane has litigated the issue of provincial paramountcy both before various boards (SDABs, NRCB, AUC, MGB/LPRT) and in the Alberta Court of Appeal. Jeneane has been privileged to speak at the APPI Conference on multiple occasions, and understands the attendees' interests, and range of experience/expertise.

#### Chloe Case

Lawyer, Brownlee LLP

Chloe Case commenced her employment with Brownlee LLP in 2020 as a summer law student. After completing her articles with Brownlee LLP in 2023, she joined Brownlee's Municipal Law practice group. Chloe has a bachelor's degree in education from the University of Alberta/Campus St. Jean, and a Law Degree from the University of Alberta. Chloe maintains a general municipal law practice, including planning and development, planning enforcement matters, expropriation, and property taxation and assessment.

## Sessions 10:30 am - 11:45 am
