SAPL's 2025-26 Urban Planning Mentorship Program

The School of Architecture, Planning and Landscape Student Association Student Association (SAPLSA), invites the Planning Community to participate in the 2025–26 Urban Planning Mentorship Program. Each year, this program connects SAPL alumni and industry professionals with Master of Planning students, fostering meaningful relationships that support the next generation of planners as they prepare to enter the profession.

As a mentor, you will have the opportunity to:

- Share your professional insights and experiences with an emerging planner
- Support a student in building their confidence, networks, and professional skills
- Contribute to strengthening connections between industry and the SAPL community

More details about the program, including the expected time commitment and the structure of the mentor–mentee relationship see the handbook [HERE](#).

If you are interested in participating complete the registration form by September 29th, 2025.
