

CAREER OPPORTUNITY

Community Planner

(CALGARY OR EDMONTON, ALBERTA)

B&A is one of Canada's leading planning, design, and engagement firms.

We have a thirty year track record of success, working on over 2,200 projects with more than 200 clients across North America. We provide professional consulting services to a diverse range of public and private sector clients, including individual landowners, developers, municipalities, and leading companies in the aggregate and energy industries.

ABOUT THE ROLE

Are you passionate about planning?

As a Community Planner with B&A, you will have the unique opportunity to support your growth as a planning professional and contribute to the continued expansion of B&A's business throughout Canada. Your passion for the development and delivery of innovative and best-practice planning approaches and solutions will drive your success and professional growth with B&A. Working in collaboration with an inter-disciplinary team you will provide project support in delivering high quality, innovative and compelling planning solutions on a wide range of complex projects to our increasingly diverse client sectors.

QUALIFICATIONS & SKILLS

We are seeking a Community Planner with experience and knowledge of municipal governance structures, community planning and land development processes in Canada. Your demonstrated understanding of governance, planning and land development will enable you to advise and assist with the expansion of B&A's customized planning services and solutions for our growing client sector base. Working in collaboration with the B&A team and our industry partners, you will play a key role in the continued growth of our customized services while also being afforded the opportunities to work on a wide range of other complex community and land development planning initiatives.

- Accredited degree in planning or related field
- Membership with the Alberta Professional Planners Institute (APPI)
- Knowledge of municipal governance structures, land use planning and development processes
- 2-3 years of community and land development planning experience

QUALIFICATIONS (CONTINUED)

- Ability to work independently and collaborate with an interdisciplinary team
- Entrepreneurial spirit and commitment to client service
- Proficiency in MS SharePoint and Office 365 integrations is considered an asset
- Familiarity with GIS and database systems is considered an asset
- Critical and systems thinking along with attention and commitment to detail is considered an asset
- Occasional travel may be required

BENEFITS

- Competitive compensation package
- Flexible working environment
- Benefits plan with Health Spending Account
- Professional Development opportunities
