Our employees play an important role in the cultural, civic and economic life of Canadians. Through our programs, we support initiatives that allow Canadians to experience dynamic cultural expressions, celebrate our history and heritage, and build strong communities.

As the manager for the Canada Cultural Spaces Fund (CCSF) in Alberta, British Columbia and the Yukon, you and your team will provide financial support to build and renovate spaces for artists to create and present their works. You will support art galleries, museums and archives in designing spaces to present their collections and share the diverse stories of those who live in their communities. You will work with Indigenous communities to create cultural centres where traditional knowledge and cultural practices are celebrated and shared. You will work with local arts organizations to undertake feasibility studies to help them achieve their dream of creating their community's first artist-run space. You will work with theatres and festivals to purchase state-of-the-art technology that will enhance the audience's live and virtual performance experience and allow cultural creators to innovate and push the boundaries of their craft. In addition, during this global pandemic, as CCSF manager, you will have a unique and rewarding opportunity to partner with not-for-profit organizations to support the safe reopening of cultural and heritage spaces as well as to support changes in how cultural and heritage organizations disseminate or present their work and collections.
