

ground cubed planning is growing! We are currently accepting resumes for the position of **Intermediate Planner** in our Calgary office.

ground cubed planning is part of the ground cubed family, which consists of a team of landscape architects, planners, a golf course architect, a construction administrator, and design technologists. Oh, and a few dogs, too.

Our firm maintains an informal and inclusive studio atmosphere where ideas and thoughts are shared openly. Our projects span both the public and private sectors and are diverse, including community master planning exercises, municipal approvals, community engagement, and urban design. Our work ranges across Southern Alberta and is dynamic. No two work days are the same.

We are looking for the right individual to contribute to our work on a variety of planning projects and to contribute to our unique office environment. This individual should:

- have a minimum of five years of experience in planning approvals, preferably in a private-sector environment;
- be able to demonstrate a diversity of experience working on a range of planning projects;
- have excellent interpersonal and verbal communication skills, as well as proven writing abilities;
- have experience with the planning approvals process in Calgary;
- be at ease presenting to approving authorities;
- be comfortable working in an open office environment (with due consideration for all applicable public health restrictions, of course) and with minimal supervision;
- thrive on a diverse, ever-changing work load that can be unpredictable at times; and
- have a positive attitude and enthusiasm for all things related to planning and design.

The ability to use the Adobe Suite and AutoCAD will be considered an asset.

This will be a one-year contract position with the possibility of becoming a permanent position after the first year.

If the points above describe you and you are interested in the position, please feel free to forward your resume and contact information to Jill Sonogo at [jill.s@groundcubed.com](mailto:jill.s@groundcubed.com) by April 10, 2021.
