

Red Deer Events Committee presents:

## **Town of Innisfail - Downtown/Main Street Revitalization Presentation and Walking Tour**

Small town downtowns and main streets can and should be a source of pride for the community. In 2010, broad public concern about the state of Innisfail's main street and the age of underlying infrastructure, led to a major reinvestment in an enhanced main street corridor. Join us for a presentation from the project team and tour of our efforts to date to make Downtown Innisfail more attractive and a source of community pride.
